**Subject: TOD Categories**

1. Attached are tabulations of the categories which DCI/NEP has proposed for the Target-Oriented Display (TOD).
2. These categories were developed in consultation with OPPB and DDI/EGS.
3. The interagency TOD Committee has not yet turned its attention to the form of the matrices to be adopted for use in compiling the initial TOD. It is likely that the committee will adopt the general format herein but omit some of the subsidiary details.

Subject: Community Target-Oriented Display (TOD)

I. THE SITUATION

10 Nov 66

In letter to Mr. Schultze, DCI agrees it would be possible and valuable to "target orient" the resources of the Community as a whole, but estimates it would take two years to get workable structure and data base.

11 Nov 66

DCI informed Mr. Schultze that CIA is taking first step to develop a target oriented display of its resources.

19 Apr 67

In letter to Mr. Vance, the DCI agrees to participate (with DOD) in the development of a target oriented display of Community resources.

16 June 67

DCI verbally gives D/DCI/NIPE green light to take over chairmanship of a TOD Committee to carry on full development of the TOD System assuming there will be approval by the Principals of the basic Terms of Reference.
